A one-week program designed to familiarize the preceptee with the advanced laparoscopic procedures including total laparoscopic hysterectomy, myomectomy, single port access, robotic gynecologic procedures and office surgery procedures. The program is one week in duration and the preceptee would have the opportunity to spend time with multiple faculty to get a varied experience. The preceptee would also be invited to attend Grand Rounds and resident lecture series. The Preceptee would be accompanying our Fellow with pre and post op evaluations of our patients.

Preferred length of visit: 1 week
