

Georgine Lamvu, M.D., MPH
Advanced Minimally Invasive Surgery and Gynecology Specialists
Orlando, Florida

Length of Fellowship (years): <input type="checkbox"/> 1-year <input checked="" type="checkbox"/> 2-years		
Optional Degrees: <input type="checkbox"/> MPH <input type="checkbox"/> MBA <input type="checkbox"/> MS <input type="checkbox"/> Other: <input checked="" type="checkbox"/> None		
Number of Faculty:		
	GYN Faculty: 3	UROGYN Faculty: 1
	REI Faculty: 1	ONCOLOGY Faculty: 1
	GU Faculty:	General Surgery Faculty:
	Colorectal Faculty: 1	Other:
Residency Program Affiliation: <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No		
Computer Simulation Center: <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No		
Labs:		
	<input type="checkbox"/> Cadaver lab	<input type="checkbox"/> Animal Lab
	<input checked="" type="checkbox"/> Dry Lab	<input type="checkbox"/> None
Office Surgery: <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No		
Contract/Agreement Letter: <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No		
	Salary: <input checked="" type="checkbox"/> Yes (\$52000) <input type="checkbox"/> No	
	Benefit Package: <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	OB obligation: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	Moonlighting: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Non-compete clause: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	Malpractice: <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	Meeting support: <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
	Malpractice tail coverage: <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	Other coverage obligations- specify: Gyn call
Accept J1 & H1Visa applicants <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No		
Dedicated Research Hours: 30% research protected time		
Clinical Focus/Additional Training:		
	<input type="checkbox"/> Reproductive Surgery	<input checked="" type="checkbox"/> Hysteroscopy
	<input checked="" type="checkbox"/> Endometriosis/Pelvic Pain	<input checked="" type="checkbox"/> Pelvic Reconstruction
	<input checked="" type="checkbox"/> Robotic Surgery	<input type="checkbox"/> Other:

GEORGINE LAMVU, MD, MPH

Advanced Minimally Invasive Surgery and Gynecology Specialists
At Florida Hospital
Orlando, Florida
MIS/GYN Fellowship Program Director

Georgine.Lamvu.MD@flhosp.org

Phone (407) 303-2780 Fax (407) 303-2782

Site Visit: February 4, 2010
Accredited: 3 years

Principal Faculty:

D. Ashley Hill, MD – Assistant Director
Fred Hoover, MD

Associate Faculty:

Rakesh Patel, MD, Sergio Larach, MD, Sajal Patel, MD, Robert Holloway, MD

2-Year Program

Description: The fellowship at Florida Hospital Orlando is a 2 year training program that focuses on gynecologic minimally invasive surgery and advanced gynecologic disorders. In this structured fellowship program the fellows will attain:

- a broad understanding of advanced gynecologic disorders, especially ones that often end in a surgical intervention
- extensive surgical and clinical expertise that focuses not only on laparoscopic surgery but also on advanced abdominal and vaginal surgery, and office based procedures
- an excellent understanding of research methodology and evidence-based practice principles

As part of a large community based tertiary medical center, the Florida Hospital Department of Obstetrics and Gynecology and the Advanced Minimally Invasive Surgery & Gynecology Specialists are a high-volume teaching environment that will provide fellows with wide-ranging gynecologic experience. We perform over 800 benign gynecologic surgeries per year, 75% of these cases are minimally invasive, 15% vaginal and 5% are abdominal. Thus graduating fellows will become proficient in all aspects of gynecologic laparoscopic surgery, including: complicated hysterectomies, pelvic reconstructive surgery, both conservative and definitive surgery for advanced stages of endometriosis, and robotic surgery.

This is a clinically broad fellowship that allows post-graduate trainees to gain expertise in a variety of advanced gynecologic disorders such as chronic pelvic pain disorders (e.g. endometriosis, irritable bowel syndrome, painful bladder syndromes), pelvic organ prolapse and incontinence, vulvovaginal disorders (e.g. vestibulitis, vulvar dermatoses,

vulvodynia, chronic vaginitis) and much more. Pain management will be taught in closely mentored clinical and didactic settings and will be influenced by relationships with the pain management programs such as the Center for Women's Pelvic Rehabilitation. Post-graduate trainees will have the opportunity to rotate through different programs including Gyn Oncology, Urology, Colorectal and REI/Ultrasound.

This fellowship will also place emphasis on academics by promoting fellow research, publication and opportunity for direct one-on-one teaching of residents and medical students. Each fellow will be encouraged to complete a research project, present at national meetings (including the American Association of Gynecologic Laparoscopists) and finalize a manuscript for publication by the end of the second year of the fellowship. Fellows will be required to attend regular didactic core lectures which will not only focus on the above clinical topics but will also include specific of lectures on research methodology, publication requirements and obtaining research funding. Overall, each fellow will devote approximately 70% of their time to clinical / surgical duties and 30% to research and teaching projects.

During the second year of their training, fellows will conduct independent clinic and schedule their own surgeries. This will allow fellows to learn the many elements of a successful clinical practice.

Upon completion of this program, fellows will have the skills to enter a career in either academic or private practice. Our goal is to train generations of educators who can excel and become excellent teachers in this field.
