1-Year Program

Description: The Scripps MIGS Fellowship is currently a one-year academic program which begins in July of every year. It is designed to provide additional training opportunities for graduates of ACGME-accredited residency programs in obstetrics & gynecology. Candidates for the Scripps MIGS Fellowship must be board-eligible in obstetrics & gynecology and have an unrestricted license to practice medicine in California. Fellows gain experience in advanced laparoscopic procedures, robotic surgery, operative hysteroscopy, pelvic floor reconstruction as well as uro-gynecologic evaluation and surgery. Fellows also obtain significant experience in office-based gynecology practice and procedures. Additionally, fellows gain a considerable exposure to the diagnosis and treatment of patients with chronic pelvic pain through our care for patients as a tertiary referral center for this problem.
