AAGL OBSERVERSHIP PROGRAM

JAVIER F. MAGRINA, M.D.
Program Director

KRISTINA BUTLER, M.D.
Associate Program Director

Program Description

Minimally invasive gynecologic surgery provides women with innovative, leading-edge options when gynecological surgery is necessary due to uterine fibroids, endometriosis, ovarian cysts, cancer or other gynecologic conditions.

Highly trained and skilled surgeons at Mayo Clinic use innovative robotic and laparoscopic hysteroscopic technologies to treat benign and malignant gynecologic conditions.

Four months lead time is required to process all requests. A CV and copy of medical license is required along with the \$300 fee.

Preferred length of visit: 4-6 Days

Observation fee Required - \$300
