at the
OMNI PARKER HOUSE
BOSTON, MASSACHUSETTS

Sponsored by
BRIGHAM AND WOMEN’S HOSPITAL
DEPARTMENT OF OBSTETRICS & GYNECOLOGY

In Collaboration with

Cleveland Clinic
Florida

MAYO CLINIC
COURSE DESCRIPTION
This intensive and comprehensive course in minimally invasive gynecologic surgery is designed to offer practical pearls and hands-on experience for gynecologists in practice. Topics will include laparoscopic surgery and suturing, endometriosis surgery, management of pelvic pain, hysterectomy, urogynecology, robotics and several others. Our primary goal is to maximize the take-home value of the participants from this meeting. Distinguished Harvard faculty as well as guest faculty will provide this information in a series of lectures, hands-on workshops and live telesurgeries.

LEARNING OBJECTIVES
Upon completion of this course, participants will be able to:

• Integrate state of the art investigative data on hysterectomy in current practice with various tips and tricks from experts in the field
• Evaluate various minimally invasive treatment options for uterine fibroids
• Evaluate the latest developments in the field and explore future directions
• Assess the management and workup of pelvic pain and endometriosis
• Review the most common complications in laparoscopic and hysteroscopic surgery and develop strategies to avoid these complications during surgery
• Determine how to appropriately select patients for surgery
• Perform laparoscopic suturing in a more efficient manner

TARGET AUDIENCE
• Physicians, Gynecologists, Urogynecologists
ACCREDITATION
