

## AAGL OBSERVERSHIP PROGRAM

---

SOUTHERN HILLS HOSPITAL  
LAS VEGAS, NEVADA

---

**WARREN VOLKER, MD**  
Program Director

### **Program Description**

Nestled in the one of the nation's most dynamic cities, the AAGL-accredited FMIGS Program at Las Vegas Minimally Invasive Surgery (LVMIS) is attracting international attention. Our program specializes in the latest minimally invasive surgical and non-surgical treatments for gynecologic and uro-gynecologic issues. Each faculty member of LVMIS has specialized skills that contribute to the overall learning experience, ranging from vaginal surgery, straight-stick laparoscopy, hysteroscopy, pelvic reconstruction, and robotics, to minimally invasive office-based procedures. Through referrals to the Women's Pelvic Health Center, which generates an average of 5,000 surgeries on an annual basis, the LVMIS fellowship program is able to offer a high volume and variety of cases.

**Preferred length of visit:** 1 Week
