WRGC V
The Fifth World Robotic Gynecology Congress

August 21-23, 2013
Palmer House Hilton
Chicago, Illinois

Scientific Chair of WRGC V
Arnold P. Advincula, MD, FACOG, FACS
• Medical Director, Center for Specialized Gynecology
• Director, AAGL/SRS Minimally Invasive Gynecologic Surgery Fellowship
• Secretary-Treasurer, American Association of Gynecologic Laparoscopists
• Professor of OB/GYN, University of Central Florida College of Medicine
• Florida Hospital Celebration Health

For more information or to register call (407) 303-4773 or visit WRGCUS.com.

Presented by:

Florida Hospital Nicholson Center
The skill to heal. The spirit to care.*

Sponsored by:

Center for Specialized Gynecology
Florida Hospital Medical Group

Endorsed by:

AAGL
The Fifth World Robotic Gynecology Congress represents an evolution in surgical instruments, techniques, outcomes and experience and features some of the most skilled robotic surgeons in the world. This year’s program also marks the fifth anniversary of what has become the largest dedicated gynecologic robotics congress in the world.

As adoption has grown, so has the introduction of new surgical platforms. Paralleling this has also been the emergence of controversies, while the minimally invasive surgical options available to women have expanded. This year’s agenda will address the increasingly sophisticated learner and experienced surgeon with subjects necessary for both the recent adopter all the way to the seasoned robotic surgeon.

This year’s congress is designed for non-robotic, training and practicing robotic surgeons and allied health personnel as well as health care executives and administrators interested in advancing their knowledge in the role of robotics in pelvic surgery. Unique to this year’s congress will be an emphasis on advanced techniques and principles through live demonstrations, as well as two live-broadcast cases that will be applicable to all facets of gynecologic surgery regardless of sub-specialization. Additionally, a special plenary session will be dedicated to the introduction of the new single-site robotics platform. New areas of controversy will be addressed throughout the congress, including the costs of robotics as well as credentialing and privileging. Eight specific plenary sessions will target topics such as complex surgical scenarios, reproductive surgery and urogynecology.

Program features include:

- A loaded and totally interactive curriculum incorporating live demonstrations from a faculty of renowned experts
- Two live telesurgery cases
- A separate session geared toward health care executives, hospital administrators and allied health personnel

Arnold P. Advincula, MD, FACOG, FACS
Scientific Chair of WRGCV
Medical Director, Center for Specialized Gynecology
Director, AAGL/SRS Minimally Invasive Gynecologic Surgery Fellowship
Secretary-Treasurer, American Association of Gynecologic Laparoscopists
Professor of OB/GYN, University of Central Florida College of Medicine
Florida Hospital Celebration Health
Course Learning Objectives

Upon completion of the course, participants should be able to:

• Formulate techniques to prevent, recognize, and repair intra-operative complications, including genito-urinary, gastrointestinal, and vascular injuries.

• Evaluate relevant options, indications, principles, techniques, and outcomes of minimally invasive gynecologic surgical procedures centered upon a multi-functional robotics platform.

• Review surgical anatomy of the female abdomen & pelvis and its role in surgical dissection techniques for complex hysterectomy, endometriosis, myomectomy, and pelvic support procedures.

• Analyze various models for developing fiscal responsibility and surgical team efficiency during robot-assisted gynecologic surgery.

WRGC V

Accreditation Statement: Florida Hospital is accredited by the Florida Medical Association to provide continuing medical education for physicians.

Designation Statement: Florida Hospital designates this live activity for 15.5 AMA PRA Category 1 Credit(s)™. Each physician should only claim credit commensurate with the extent of their participation in the activity.

Nursing Credit: Nursing contact hours will be awarded for attendance to this course by Florida Hospital FSBN Provider #NCE2012.

American Disability Act Statement: Florida Hospital is committed to making our activities accessible to all individuals. If you have a disability, please submit a description of your needs, along with your registration, to assure that you will be able to participate in the activity.

Faculty Disclosure/Conflict of Interest: In accordance with Continuing Medical Education requirements on disclosure, information about relationships of presenters with commercial interests (if any) will be disclosed at the conference. The faculty is expected to disclose to the program audience any real or appropriate conflict(s) of interest to the content of their presentation(s). Faculty is also required to identify any reference to off-labeled usage or research data included in their presentation.
# Day One Schedule: Morning

**Wednesday, August 21, 2013**
