## BRIDGEPORT HOSPITAL NEW HAVEN, CONNECTICUT

---

*Accreditation Period: 2015 – 2019*

**MASOUD AZODI, M.D.**  
Program Director  
Professor

**SHABNAM KASHANI, M.D.**  
Associate Program Director

### FACULTY

**Richard Bercik, M.D.**, *Assistant Professor, Yale Uro-Gynecology*

**Shabnam Kashani, M.D.**, *Associate Program Director for MIGS Fellowship Program and Clinical Director of Ob/Gyn Ambulatory Services, Bridgeport Hospital*

**Harold J. Sauer, M.D.**, *Chairman OB/GYN, Bridgeport Hospital, Reproductive Endocrinology*

**Gulden Menderes, M.D.**, *Assistant Professor, Yale Gynecologic Oncology*

**Scott Thornton, M.D.**, *Colo-Rectal Surgery, Bridgeport Hospital*

### 2-YEAR PROGRAM

**Description:** Our gynecologic endoscopy program is a two-year comprehensive program incorporating clinical, research, and educational activities. Bridgeport Hospital is a community teaching program with Yale University affiliation. We currently perform over 3,800 gynecologic procedures per year. Our Minimally Invasive Surgery Program is a high volume service that covers the breadth of gynecologic endoscopy as well as complex abdominal and vaginal surgery. The fellow will benefit from the experience of active surgeons whose collective focus includes a full spectrum of laparoscopic, hysteroscopic, and minimally invasive procedures including infertility, urology, colorectal, gynecologic oncology and general gynecology. Exposure to robotic-assisted laparoscopy is a vital component of our fellowship program.

The Director of the Fellowship Program, Dr. Masoud Azodi, is a Professor (Yale University School of Medicine) is part of the Gynecologic Oncology Group and the Director of the minimally-invasive and Robotic Surgery at Yale University School of Medicine Gynecologic Oncology Section. He is also the Chief of Gynecologic Oncology at Bridgeport Hospital. Over the past several years, he has become the community's leading expert in gynecologic laparoscopic

surgery, performing over 2,500 robotic cases since 2006 and has a vast experience with conventional laparoscopy. Most of his cases are referred from general gynecologists, for not only malignancy, but also complicated surgical challenges including large myomatous uteri, extensive adhesive disease, and/or endometriosis. He performs 7-10 endoscopic procedures per week. His passion for minimally invasive surgery has inspired many residents and attending physicians in the community. He has won many awards for his excellence in resident education.

Dr. Richard Bercik is a part of the Uro-Gynecology Group at Yale University. He is also an attending at Bridgeport Hospital. He is very active in clinical research in minimally invasive surgery and has proven to be an exceptional resident teacher. He has joined our fellowship faculty list starting January 1<sup>st</sup>, 2012 to increase the fellow's exposure and teaching in uro-gynecological procedures including pelvic floor reconstruction.

Dr. Shabnam Kashani is the Clinical Director of Ob/Gyn Ambulatory Services at Bridgeport Hospital and Associate Program Director of the MIGS Fellowship Program. She completed her MIGS Fellowship at Bridgeport Hospital and is well versed in minimally invasive surgery, both hysteroscopic and laparoscopic. She is very active in the residency program and has a passion for teaching.

Harold J. Sauer, MD, is the Chairman of the Bridgeport Hospital Obstetrics and Gynecology Department. He is a fellowship-trained REI and long time ABOG board examiner. He is actively involved with resident education. Currently, he runs a weekly pre-op clinic for house staff to book complicated laparoscopic and hysteroscopic cases with him. He has many years expertise in difficult laparoscopic procedures and enjoys working with residents to improve their surgical dexterity and skills.

Dr. Gulden Menderes is an Assistant Professor of the Gynecology Oncology Group at Yale University. She has joined the fellowship as a core faculty member in August 2018 after completing her MIGS Fellowship with us June 2014 and her Gynecologic Oncology Fellowship at Yale June 2018. She is very active in clinical research and a prolific publisher. She has proven herself to be an exceptional teacher.

Dr. Scott Thornton is a prominent colorectal surgeon at Bridgeport Hospital. He will support the general surgery aspect of the fellowship, allowing the fellow extensive experience in enterolysis, bowel repair and resection. He is an expert in laparoscopic colorectal surgery. He has been named as Best Doctor in multiple issues of New York Magazine and won multiple awards for resident education.

#### **FELLOWSHIP CURRICULUM**

Gaining proficiency in all advanced gynecologic procedures is expected. These would include LSH, TLH, laparoscopic myomectomy, laparoscopic sacrocolpopexy, suburethral slings, hysteroscopic myomectomy, and colorectal surgery. Robotic experience in hysterectomy, sacrocolpopexy, myomectomy, and retroperitoneal oncologic staging will be included in the programs.

Teaching activities will include resident instruction in endoscopic technique using an advanced skills laboratory and supervision of basic endoscopic procedures. Participating in departmental grand rounds, didactic educational programs, monthly journal clubs, biweekly tumor boards and weekly conferences is expected. The required research project may take advantage of the many clinical or basic research opportunities ongoing in the division or may be uniquely designed by the fellow with faculty supervision. The Yale OB/GYN department will be supportive of fellow research projects will result in national presentations and peer-reviewed manuscripts. Protected academic research time is incorporated into the post-graduate training program.

A unique feature of this program is not only the incorporation of training in robotics as it applies to gynecologic procedures but due to the nature of the practice, the fellow will have exposure to gynecological malignancies and assist in laparoscopic staging and radical surgery for malignancies. There are no gynecologic oncology fellows based at Bridgeport Hospital, making the busy surgical volume of the Gynecologic Oncology Section all potential cases for learning by the gynecologic endoscopy fellow.

Overall, this program will train the fellow for general gynecologic minimally invasive surgery using conventional

laparoscopy, robotic-assisted laparoscopy, and hysteroscopy. They will also have extensive experience with gynecologic oncology procedures, reproductive endocrine procedures, urogynecologic procedures, complex gynecologic surgeries and advanced endometriosis cases. Our fellow will also work with an experienced colorectal surgeon performing laparoscopic bowel procedures.

Fellow will spend an average of 2-3 days in surgery per week. Individuals can expect to be in the office/clinic an average of 2 days per week. Around 1 day per week will be reserved for research time.

Fellows will have teaching responsibilities as they relate to the training of not only 12 house staff in the obstetrics and gynecology residency program but also physicians both in the academic and community settings. Post-graduate trainees will have the advantage of being exposed to a wide variety of resources available at Yale University. These resources include the ability to pursue master level degrees in the areas of public health and clinical investigation. Surgical laboratories with established gynecology protocols will also be readily available for both inanimate and animate training and research.

The fellow will have a two month rotation in reproductive endocrinology, a two month rotation in uro-gynecology and a one month elective rotation during their fellowship.

Upon completion of this program, the fellow will be competent in a full spectrum of endoscopic surgical techniques and be qualified to serve as a consultant in minimally invasive gynecologic surgery in an academic or private setting.

#### **SCHEDULE**

Monday: Office with Dr. Menderes/Research  
Tuesday: Surgery with Dr. Menderes/Dr. Azodi/Dr. Bercik and other faculties  
Wednesday: Surgery with Dr. Azodi/ Colorectal surgery with Dr. Thornton  
Thursday: Didactics/Office with Dr. Azodi/Surgery with other faculties  
Friday: Research

#### **CASE LOAD**

Operative Laparoscopy – 250  
Diagnostic Laparoscopy – 30  
Operative Hysteroscopy – 30  
Diagnostic Hysteroscopy – 30  
Abdominal Hysterectomy –25  
Abdominal Myomectomy – 5  
Vaginal Hysterectomy - 15  
Vaginal Repair Procedures – 20  
Incontinence Procedures – 20  
Da Vinci cases – 100  
Laparotomy – 20

#### **CONFERENCE SCHEDULE**

GYN Pre-op Conference  
MIS/PPP didactics (2<sup>nd</sup> & 4<sup>th</sup> week of each month)  
OB/GYN Department M & M (4th week of each month)  
OB/GYN Faculty Meeting  
Grand Rounds (2<sup>nd</sup> & 4<sup>th</sup> Thursday of each month)  
Tumor Board (1<sup>st</sup> and 3<sup>rd</sup> Thursday of each month)

#### **DESCRIPTION OF CONFERENCE**

GYN Pre-op Conference: The gynecology service will meet on a weekly basis to discuss the planned surgical

procedures for the week. The pre-operative evaluation and the indications for all resident patients and all hysterectomies are reviewed. This conference allows the residents and fellows to review the appropriate pre-operative evaluation of most gynecologic surgical procedures, to discuss alternative treatment options, and the appropriate informed consent process.

**OB/GYN Department M & M Conference:** This department-wide morbidity and mortality conference is presented by the senior resident on each service.

**MIS Didactics:** The MIS division will meet 2 times per month for a didactic session to review topics of particular interest to our division. One session each month will be dedicated to review of a clinical topic outlined in the fellowship educational objectives.

**OB/GYN Department Grand Rounds:** This department-wide Grand Rounds is an excellent source of continuing medical education, covering a wide variety of topics relevant to obstetricians and gynecologists presented by experts in their respective topic domains. Bridgeport Hospital is an accredited CME provider.

**TUMOR BOARD:** All Gynecologic Oncology cases are presented in multi-disciplinary board.

**JOURNAL CLUB:** Selected articles will be presented once a month with detailed analysis.

**NATIONAL/INTERNATIONAL CONFERENCES:** The Graduate Medical Education office is fully supportive of MIGS Fellows presenting at national and international conferences.
