## 2-Year Program

### Optional Degrees:
- [ ] MPH
- [ ] MBA
- [ ] MS
- [x] None

### Number of Faculty
- GYN Faculty: 6
- UROGYN Faculty: 4
- REI Faculty: 3
- ONCOLOGY Faculty: 7
- GU Faculty: 1
- General Surgery Faculty: 7
- Colorectal Faculty: 1
- Other:

### Residency Program Affiliation:
- [x] Yes
- [ ] No

### Computer Simulation Center:
- [x] Yes
- [ ] No

### Training Labs
- [x] Cadaver lab
- [x] Animal Lab
- [ ] None
- [x] Dry Lab
- [x] Robotics

### Office Surgery:
- [x] Yes
- [ ] No

### Contract/Agreement Letter:
- [x] Yes
- [ ] No

#### Yearly Salary:
- [x] Yes ($65,554)
- [ ] No

#### Resident Teaching:
- [x] Yes
- [ ] No

#### Benefit Package:
- [x] Yes
- [ ] No

#### OB obligation:
- [ ] Yes
- [ ] No
- If yes, please describe obligation.

#### Junior Faculty:
- [x] Yes
- [ ] No
- Attending Privileges:
- [ ] Yes
- [x] No

#### Moonlighting:
- [x] Yes
- [ ] No
- Non-compete clause:
- [ ] Yes
- [x] No

#### Malpractice:
- [x] Yes
- [ ] No
- Meeting support:
- [ ] Yes
- [x] No

#### Malpractice tail coverage:
- [x] Yes
- [ ] No
- Other coverage obligations - specify:
- Part of gyn surgical call pool with other residents and fellows.

#### Accept J1 & H1Visa applicants:
- [x] Yes
- [ ] No

### Dedicated Research Hours:
- Hours/per week: 4
- Hours/per month: 16 + (2 full months of research)

### Protected Academic:
- Hours/per week: 4
- Hours/per month: 16

### Clinical Focus/Special Interest
- [x] Reproductive Surgery
- [ ] Oncology
- [x] Endometriosis/Pelvic Pain
- [ ] Pelvic Reconstruction
- [ ] Robotic Surgery
- [ ] Pediatric/Adolescent
- [x] Hysteroscopic Surgery
- [ ] Other:

2.7.2019
MAYO CLINIC
ROCHESTER, MINNESOTA

Accreditation Period: 2019 – 2021

FACULTY
Daniel Breitkopf, MD, Abimbola Famuyide, MBBS, Shannon Laughlin-Tommaso, MD, Zaraq Khan, MBBS, & William Cliby, MD, John Occhino, MD Scott Kelly, MD

2-YEAR PROGRAM

Description
The two-year fellowship program trains graduates to become academic faculty in minimally invasive gynecologic surgery. Located in Rochester, Minnesota, at a well-known academic medical center, fellows have access to world class faculty and extensive resources for all aspects of training.

The fellowship program enrolls one fellow on a yearly basis starting in July. The fellow trains in advanced laparoscopic (both conventional and robotic) and hysteroscopic surgery with a focus on benign gynecologic disease. Fellows spend the majority of time on the minimally invasive gynecology surgery service, a diverse six-member division, with additional rotations in urogynecology, gynecologic oncology, reproductive endocrinology and infertility and colon and rectal surgery.

The program strives for excellence in research. With specific blocks set aside for research, and additional research time built into clinical rotations, a MIGS research group, a proactive research coordinator team and institutional resources, the fellow receives the skills and experience to launch an academic career. The fellow may also complete additional formal training in research methodology.
The program trains fellows within the context of the Mayo Clinic patient care philosophy, where “the needs of the patient come first,” and the fellow operates within this paradigm under the guidance and example of faculty.

Applicants for the Minimally Invasive Gynecologic Surgery fellowship must have:

- Graduated from an ACGME-accredited obstetrics and gynecology program in the U.S.
- Previous research experience
- Previous surgical experience
- Aspirations for a career in academic medicine
