# 2-Year Program

**Optional Degrees:**
- [ ] MPH
- [ ] MBA
- [ ] MS
- [x] Other: None

**Number of Faculty:**
- GYN Faculty: 3
- UROGYN Faculty: 2
- REI Faculty: 1
- ONCOLOGY Faculty: 2
- GU Faculty: 0
- General Surgery Faculty: 16
- Colorectal Faculty: 2
- Other:

**Residency Program Affiliation:**
- [x] Yes
- [ ] No

**Computer Simulation Center:**
- [x] Yes
- [ ] No

**Training Labs:**
- [x] Cadaver lab
- [ ] Animal Lab
- [ ] None
- [ ] Dry Lab
- [x] Robotics

**Office Surgery:**
- [x] Yes
- [ ] No

**Contract/Agreement Letter:**
- [x] Yes
- [ ] No

**Yearly Salary:**
- [x] Yes ($65,770.)
- [ ] No

**Resident Teaching:**
- [x] Yes
- [ ] No

**Benefit Package:**
- [x] Yes
- [ ] No

**OB obligation:**
- [x] Yes
- [ ] No
- If yes, please describe obligation. 2-3 calls per month which include OB

**Junior Faculty:**
- [x] Yes
- [ ] No

**Moonlighting:**
- [ ] Yes
- [x] No

**Malpractice:**
- [x] Yes
- [ ] No

**Meeting support:**
- [x] Yes
- [ ] No

**Malpractice tail coverage:**
- [x] Yes
- [ ] No

**Other coverage obligations- specify:**

**Accept J1 & H1Visa applicants**
- [x] Yes
- [ ] No

**Dedicated Research Hours:**
- Hours/week: 4
- Hours/month: 16

**Protected Academic:**
- Hours/week: 2
- Hours/month: 8

**Clinical Focus/Special Interest:**
- [x] Reproductive Surgery
- [ ] Oncology
- [x] Endometriosis/Pelvic Pain
- [ ] Pelvic Reconstruction
- [x] Robotic Surgery
- [ ] Pediatric/Adolescent
- [x] Hysteroscopic Surgery
- [ ] Other:
FACULTY

Charles E. Miller, M.D.
James R. Dolan, M.D.
Michael Noone, M.D.
Kirsten Sasaki, MD.
Aarathi Cholkeri-Singh, M.D.
Addie Alkhas, M.D.
Brett Vassallo, M.D.
Brian Locker, M.D.

2-YEAR PROGRAM

Description: This is a 2-year program that incorporates clinical, research and teaching responsibilities to develop the participant’s skill and knowledge base in the performance of minimally invasive gynecologic procedures.

Our facility is a 645-bed Independent Academic Institution with an active Graduate Medical Education program. The unique component of our fellowship program is the extensive surgical volume at our institution. The fellow will be in the operative suite 4-5 days/week. Outpatient clinic will be 1-2 half days per week for intakes and postoperative care and rotate through general gynecology and urogynecology. Protected time will be allotted for research activities.

Case Volume:
Our institution performs over 2,000 gynecologic surgeries per year averaging 497 operative laparoscopies, 72 vaginal surgeries with pelvic floor or incontinence procedures, 547 operative hysteroscopies, and 248 cases for invasive cancer. Our Robotics program is one of the largest multidisciplinary programs in the country with representation from Colorectal Surgery, Urology and Pediatric Urology. Our current gynecologic robotic case volume averages 200 per year. The fellow will be given graduated responsibility based on performance within the fellowship. They can expect adequate volume to be credentialled in all facets of minimally invasive gynecologic surgery. Two to three days per
week the fellow will work in the operating room with Dr. Charles Miller, internationally recognized expert in minimally invasive gynecologic surgery, and one day per week with his associates, Dr. Aarathi Cholkeri-Singh and Dr. Kirsten Sasaki, both fellowship graduates.

**Description of Conferences:**
- a. Gynecologic Morbidity and Mortality
- b. Gynecologic Journal Club
- c. Departmental Grand Rounds
- d. Gynecologic Morning Teaching Rounds

**Coverage:**
The fellow will be expected to participate in the Faculty In-House Call Program. Call will be up to 48 hours per month. These responsibilities may include one weekend day, one week day per month and/or one ½ day per week of resident clinic coverage. The fellow will function as faculty supervisor for resident activity during this time including ER admissions, surgical supervision and OB cases. The fellow will be responsible for management of the Resident Endoscopic Skills laboratory on a quarterly basis. In addition the fellow will be responsible for call coverage for Dr. Miller and Dr. Cholkeri’s practice.

**Research Project:** The Fellow is expected to develop and pursue research projects during the fellowship. A ½ day per week will be allotted to this activity. The expectation is for the fellow to prepare a paper for submission to a peer reviewed journal and present their research at Department Grand Rounds.
