	Malpractice: <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <span style="float: right;">Meeting support: <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</span>
	Malpractice tail coverage: <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <span style="float: right;">Other coverage obligations- specify:</span>
<b>Accept J1 &amp; H1Visa applicants</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
<b>Dedicated Research Hours:</b>	Hours/per week: 1 month each year
	Hours/per month:
<b>Protected Academic:</b>	Hours/per week: 4
	Hours/per month:
<b>Clinical Focus/Special Interest:</b>	
	<input checked="" type="checkbox"/> Reproductive Surgery <input checked="" type="checkbox"/> Oncology
	<input checked="" type="checkbox"/> Endometriosis/Pelvic Pain <input checked="" type="checkbox"/> Pelvic Reconstruction
	<input checked="" type="checkbox"/> Robotic Surgery <input type="checkbox"/> Pediatric/Adolescent
	<input checked="" type="checkbox"/> Hysteroscopic Surgery <input checked="" type="checkbox"/> Other: Vaginal surgery

## MAYO CLINIC ARIZONA PHOENIX, ARIZONA

**Accreditation Period:** July 2016 – June 2020

**JOHNNY YI, M.D.**  
Program Director

**KRISTINA A. BUTLER, M.D.**  
Associate Program Director

### FACULTY

Kristina A. Butler, M.D.  
Jeffrey Cornella, M.D.  
Megan Wasson, M.D.

Javier F Magrina, M.D.  
Paul Magtibay, M.D.  
Johnny Yi, M.D.

### 2-YEAR PROGRAM

**Description:** The fellowship program at Mayo Clinic Arizona is a comprehensive academic, clinical and surgical training program designed for the fellow who wants to be a well-rounded pelvic surgeon. The faculty includes six fellowship-trained surgeons who are deeply committed to a minimally invasive surgical practice and to advancement of the field. The fellow will be exposed to a large volume of surgeries in all aspects of MIS - hysteroscopic, vaginal, laparoscopic and robotic techniques – performed for simple and advanced benign conditions, urogynecology and gynecologic oncology. The program includes coursework in biostatistics and clinical research allowing for a solid foundation for an academic career. At the end of two years, the fellow will be expected to complete at least one research thesis project that will be submitted for presentation at a national society meeting and publication in a peer-reviewed journal. Fellows will participate in teaching at both departmental and at annual Mayo national CME conferences.

### ***Learning Experience:***

1. Conferences: departmental conferences covering all aspects of gynecologic conditions and surgery will be provided on a weekly basis. Journal club and quality reviews are conducted regularly.
2. Clinical and surgical: Fellows will rotate quarterly through each service working one-on-one with the consultants in surgery and clinic. Fellows will see patients in clinic independently with the surgical consultants readily available for guidance and direction. The MIS Fellow will take call, rotating with other fellows and Physicians Assistants. There is no OB call.
3. Research: In addition to participating in ongoing research studies in the department, the trainee is expected to conduct an independent research project. A research mentor will guide the trainee through all aspects of research conduct in order to submit their work for presentation at a national society meeting and publication in a peer-reviewed journal. The fellow will have access to all Mayo AZ resources (library, AV, biostatistics, editing and publications) for a productive research experience.
4. Simulation wet and dry lab: Fellow has access to a dry lab with pelvic trainers for laparoscopic suturing skills and to the robotic simulation system. In addition, a biannual laparoscopic dissection with cadavers is conducted to master pelvic anatomy and become proficient in techniques to dissect to the retroperitoneal structures.
